TURNING & GRINDING

The 700, 750, 1000 and 3000 models can be configured to turn both hard & soft and grind parts on the same machine. This allows for multiple operations in the same setup which cuts costs and setup times while improving overall quality.

Standard Features For These Types of Machines

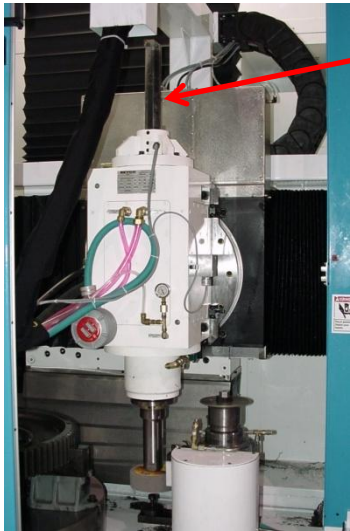

- Fanuc CNC Control
- Precision Roller Ways – All Axes
- Ability To Use Any Abrasive
- OD/ID Grinding Spindle
- Single Point Dresser
- Roller Style Table Bearing
- Linear Glass Scales – All Axes
- Full Machine Enclosure With World Class Ergonomics
- Parts From 3" To Over A 100" Depending On The Model

Options

- Depending on your application the turning tool can be 90° or 180° from spindle (in some cases it can also replace the grinding wheel).
- Custom turning and grinding front end for ease of programming.
- Tool and nozzle changer
- Built in chip conveyer
- Coolant through the turning tool

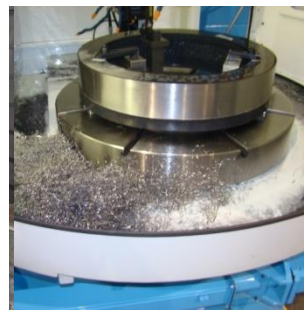

Typical Applications

Typical on 750
